EDUCATION

Hooghly Engineering and Technology College   *2021 - Present*
Computer Science and Engineering Department   Average CGPA: 7.82/10

Barsul C.D.P. High School
Higher Secondary (Science), WBCHSE (2021)   Percentage: 73.4%
Secondary, WBBSE (2019)   Percentage : 70.28%

TECHNICAL STRENGTHS

Computer Languages	Python, C
Software & Tools	Excel, Power BI, SQL, HTML, CSS, LaTeX

PROJECTS

OLA DATA ANALYSIS   Feb 2025 - Mar 2025
Tools: *Excel, SQL, Power BI*

- Cleaned and organized OLA ride data in Excel for accuracy.
- Used SQL to analyze cancellations, revenue trends, and customer ratings.
- Built Power BI dashboards to visualize key insights.
- Identified peak-hour demand, satisfaction patterns, and revenue opportunities.

SALES DATA ANALYSIS   Feb 2025 - Mar 2025
Tools: *Excel*

- Processed sales data in Excel for trend analysis and decision-making.
- Used Pivot Tables & Charts for revenue, category, and customer insights.
- Designed an interactive dashboard with key sales metrics.
- Applied Conditional Formatting and Data Validation for better visualization.

PERSONAL PORTFOLIO WEBSITE   Jun 2024 - Jul 2024
Tools: *HTML, CSS*

- Developed a responsive portfolio website to showcase projects and skills.
- Designed a modern UI/UX with optimized performance across devices.
- Deployed using GitHub Pages for easy accessibility.

ONLINE FRONT-END SIMULATOR   May 2024 - Jul 2024
Tools: *HTML, CSS, JavaScript*

- Created an interactive front-end simulator merging HTML & CSS.
- Enabled real-time rendering with JavaScript for instant updates.
- Designed a user-friendly interface to enhance coding productivity.

BALANCE SHEET   Jul 2024 - Aug 2024
Tools: *HTML, CSS, JavaScript*   *Under Tecosys (Startup)*

- Developed a detailed balance sheet to analyze financial position and track assets, liabilities, and equity.

· Utilized Excel formulas and functions to automate calculations and ensure data accuracy.
· Designed an interactive and structured format for easy financial interpretation.

CERTIFICATIONS

Career Essentials in Data Analysis by Microsoft and LinkedIn (March 2025).

Create Charts and Dashboards Using Microsoft Excel by Coursera (February 2024).

INTERNSHIPS

Front-End Development Internship   Jun 2024 - Jul 2024
IBM SkillsBuild + AICTE + Edunet Foundation

· Gained hands-on experience in front-end web development using HTML and CSS.
· Developed responsive and interactive web applications following industry best practices.
· Completed structured learning modules and real-world project tasks under expert guidance.
· Earned certification upon completing the internship program.

Business Analyst Internship   Jul 2024 - Dec 2024
Tecosys (Startup)

· Managed and analyzed product data, team member records, and financial data.
· Performed data cleaning and preprocessing to ensure accuracy and consistency.
· Designed and maintained an interactive balance sheet for financial tracking.
· Developed dynamic dashboards to visualize key business insights.
· Collaborated with teams to optimize data-driven decision-making in a fast-paced startup environment.

SOFT SKILLS

Languages   Bengali, English, Hindi
Skills   Communication, Adaptability, Problem Solving, Teamwork
